# Conceptual vision for a Smart City

Common Characteristics

Específic Factors

## Ciudad Inteligente

It must have a **city strategy** built on a range of **initiatives** dealing with smart cities **features**. These should be developed by specific **projects** and by using city **components**

Source: Mapping Smart  
Cities in the EU

## Electronic site

- Enquiry and documents upload of 7 million electronic records.
- 95% online procedures through the electronic office.
- Electronic public notice board.
- Tributary Electronic Office.
- Electronic Representation

## Interoperability

- With other administrations.
- 360.000 eCertificates
  - 400.000 eProcedures

## Council without papers

Electronic register.  
Records management.  
Governing Bodies.  
Briefcase.

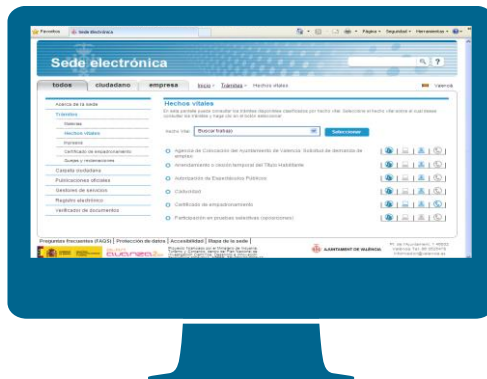

## Geography information System

250 data layers.  
Integrated maps, street view and BD territory.

## Accesibility

*Inclusite* disabled people have full access to municipal web.

# Smart Governance

Fulfilling electronic rights of citizens

**AJUNTAMENT  
DE VALÈNCIA**

**Local Innovation Map**  
Shows up R+D+i agents at Valencia

# Smart Economy

Innovation and knowledge economy

**Geo-emprende**, geographic and business information tool that will provide data of the city and useful information to start a company or a commerce.

Cooperative Networks for the Promotion and Transfer of Technology and Knowledge

## Sustainable Urban Mobility Plan for Valencia (PMUS), September 2013.

76,4% displacements within  
Valencia are sustainably made

**3,900 detectors** to measure traffic  
intensity

**1,100 local traffic light** management  
regulators

**Artificial vision** systems for automatic  
incident detection on underpasses.

**Real time traffic status** | Information panels, Twitter and phone service.

### Public rental of bikes

- ✓ 2,750 bicycles distributed at 275 stations and 5,500 anchor points.
- ✓ 110,000 subscribers

### Smart administration- Sustainable vehicles

- Electronic management of incidents.
- Operating assistance system.
- Real-time communication within bus fleet.
- 405 biodiesel buses.
- 75 buses with compressed natural gas

# Smart Mobility

Traffic  
EMT  
Valenbisi

**AJUNTAMENT  
DE VALÈNCIA**

8% city growth, four times lower than the provisions of Spanish Land Use Regulations.

60% municipal protection of historical buildings.  
Around 500 BIC or BRL spaces.

Alert service for people interested in Public Housing.

## Street Lighting ▼ Integrated System of public Street lighting

**70% of lamps have flow regulator**

### SMART WATER METERS

60% already renovated  
(258.000)  
430.000 in 2016

### SMART-est

Resilient Systems for urban floods

Proyecto **CAT-MED**  
(Green squares)

Dynamic noise map.  
Pollen map  
alert service

### Action plans

regarding sustainable energy, air quality and noise pollution.

### INTEGRAL ADVANCED SYSTEM FOR WATER MANAGEMENT

Control and monitoring information in real time from 1450 km infrastructure network

**Sensors**  
for **early forest fire detection**

# Smart Environment

Renewable energies,  
Ecology, Efficiency,  
Pollution, Water  
Management,  
Beaches

**Euro-Mediterranean Network of Sustainable Cities**

**Spanish Network of Climate Cities**

**Spanish Network of Cities for the Accessibility, REDCA-4ALL**

**Spanish Healthy Cities Network**

**AENOR**

## Participation in city networks

Indicators of  
information  
management

KNOWLEDGE  
FOR THE CITY

### Three types of indicators ▼

**City indicators.** Strategic indicators which provide socioeconomic information of the city.

**Citizen indicators.** Measure citizens' perception and satisfaction with city services.

**Municipal services management indicators.** Measure administrative and operating activity of each service.

City indicators

Citizen indicators

Municipal services  
management indicators

## Indicators: Essential basis of the VLCi Strategy

# Steps towards a smarter Valencia

AJUNTAMENT  
DE VALÈNCIA

## Definition of a Smart City Strategy

Evaluation of Smart maturity of municipal services.  
Definition of Smart strategic objectives.  
Definition of city and citizens indicators.

## Prioritization of municipal services to manage

Definition of municipal services indicators.  
Municipal contracts considering their integration to the VLCi Platform.

## Smart City platform and services tender

Definition of indicators control panel (and Balanced Scoreboards)  
Definition of service levels and use of VLCi Platform.

## Promote the innovation and use by entrepreneurs

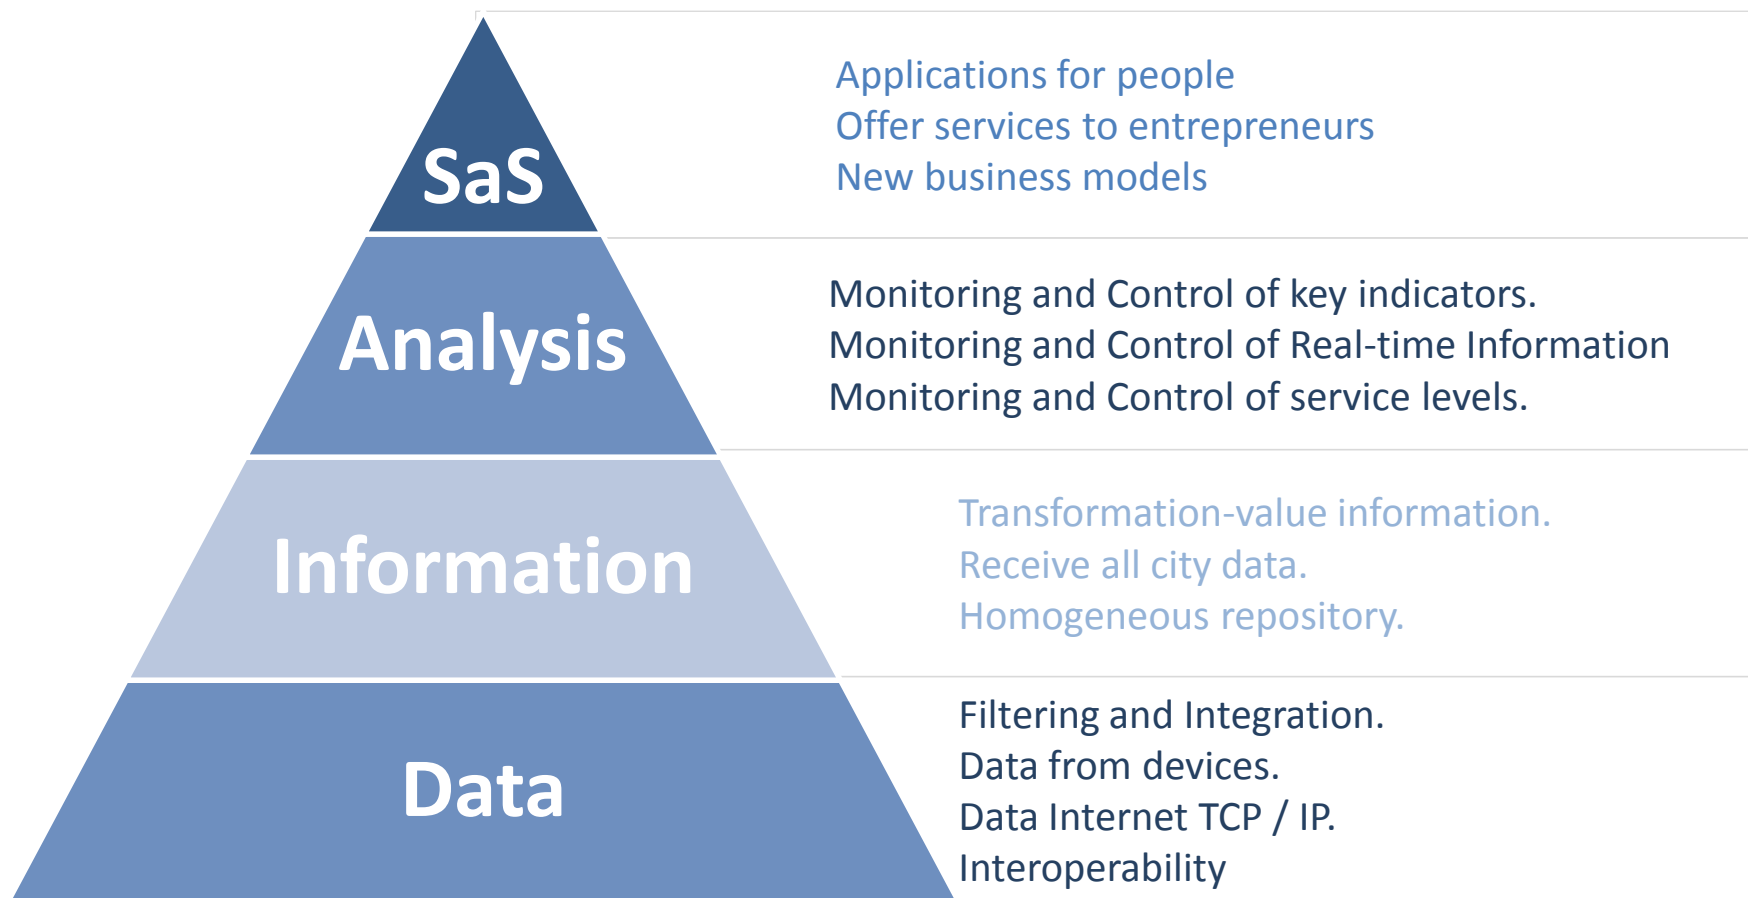

Enabling the development of new applications and solutions for local businesses.

# Technology vision of VLCi Platform
